Proposal Details

Proposal No	IA/TG/IND/26997/2013	Category	Non-Coal Mining		
Proposal Name	CHOUTAPALLI LIMESTONE MINE-II (2.72 MTPA) OF M/s. MY HOME INDUSTRIES PRIVATE LIMITED				
Plot / Survey/ Khasra No.		Village(s)		Sub-District(s)	
State	TELANGANA	District	SURYAPET		
MoEF File No	J-11015/445/2013-IA.II (M)	Name of the Entity/ Corporate Office	MY HOME INDUSTRIES PRIVATE LIMITED	Entity's PAN	NA
Entity Name as per PAN	NA	Entity details mentioned above is correct ?	Agree

Compliance Reporting Details

Reporting Year	2023	Reporting Period	01 Dec(01 Apr - 30 Sep)
Remark(if any)	Enclosed herewith Six Monthly Environmental Clearance Compliance report for the period APRIL'2023 to SEPTEMBER'2023 of CHOUTAPALLI LIMESTONE MINE-II.		

Details of Production and Project Area

Date of Commencement of Project/Activity 22-02-2018

	Project Area as per EC Granted(ha.)	Actual Project Area in Possession(ha.)
Private	0	0
Revenue Land	0	0
Forest	0	0
Others	0	0
Total	0	0

PRODUCTION CAPACITY

Sr.No.	Name of the Product	Units	As per EC Granted	As per CTO Granted	CTO ID	Valid Up To	Production during last financial year
1	LIMESTONE	Million Tons per Annum (MTPA)	2.72	2.72	210522986074	30-06-2026	0.719998

Conditions

Specific Conditions

Sr.No.	Condition Type	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	AIR QUALITY MONITORING AND PRESERVATION	Real time monitoring of air pollutants shall be done around the adjoining villages by establishing online AAQ stations in each village and display of parameters done at designated locations. The operations should be stopped immediately if air quality found to be below the prescribed standards	PPs Submission	We are also carrying out manual monitoring of ambient air quality at 8stations of nearby villages. One of the stations of CAAQMS is established in the predominant wind direction. Being Complied Attachment: NA
2	Statutory compliance	Environmental clearance is granted subject to final outcome of Hon?ble Supreme Court of India, Hon?ble High Court of Telangana and any other court of law, if any, as may be applicable to this project.	PPs Submission	Agreed Being Complied Attachment: NA
3	Statutory compliance	Environmental clearance is subject to obtaining clearance, if any, under the Wildlife (Protection) Act, 1972 from the competent authority, as may be applicable to this project.	PPs Submission	Not applicable. Being Complied Attachment: NA

4	Statutory compliance	No mining activities will be allowed in forest area, if any, for which the forest clearance is not available.	PPs Submission	Not applicable. No forest land in lease area. Being Complied Attachment: NA
5	Statutory compliance	The project proponent shall obtain Consent to Operate from State Pollution Control Board, Telangana and effectively implement all the conditions stipulated therein.	PPs Submission	Obtained consent for operation from Telangana State Pollution Control Board vide Order no. 210522986074 Date: 23.07.2021 and 23.07.2021 and valid up to 30.06.2026. Being Complied Attachment: Click to View
6	Statutory compliance	The prior permission from CGWA for intersecting the ground water table shall be obtained.	PPs Submission	Prior permission from CGWA will be obtained before intersecting ground water table. Agreed to Comply Attachment: NA
7	Statutory compliance	The project will implement and comply with all applicable safeguard measures as provided in OM No. Z-11013/57/2014-IA.II (M) date 29th October 2014.	PPs Submission	Applicable safeguard measures are being followed / implemented. Being Complied Attachment: Click to View
8	Statutory compliance	A buffer zone of 50 meters (greenbelt) on either side of the Nagarjuna Canal passing near the lease area should be developed for protection of the canal.	PPs Submission	Greenbelt will be developed along the canal during course of operation of mine in phased manner and as per mining plan submitted. Being Complied Attachment: NA

9	WATER QUALITY MONITORING AND PRESERVATION	The loose solids should be kept separately from flowing water and flow of effluents to nearby areas outside the lease hold shall be prevented. The paved drains along with arrangements of overburden dumps and their drainage may be clearly depicted on a contoured map of the mining area.	PPs Submission	There is no over burden generation in this mine. Being Complied Attachment: NA
10	WATER QUALITY MONITORING AND PRESERVATION	The project proponent shall ensure that no natural watercourse and /or water resources shall be obstructed due to any mining operations. Adequate measures shall be taken for conservation and protection of 1st and 2nd order streams, emanating or passing through the mine lease during the course of mining operation.	PPs Submission	There is no natural watercourse or water resources inside the mine lease. Being Complied Attachment: NA
11	LAND RECLAMATION	The top soil, if any shall temporarily be stored at earmarked site(s) only and it should not be kept unutilized for long. The top soil shall be used for land reclamation and plantation.	PPs Submission	Generated top soil during the development period is being utilized for plantation along the 7.5 m barrier zone of the periphery of mining lease area. Being Complied Attachment: NA

12	WATER QUALITY MONITORING AND PRESERVATION	Appropriate safeguard measures shall be taken to ensure stability and drainage of dump so that no solid waste/debris flows into the nallah.	<table border="1"> <tr> <td data-bbox="987 92 1227 236">PPs Submission</td> <td data-bbox="1227 92 1984 236">There is no overburden dumps in this mine. Agreed to Comply Attachment: NA</td> </tr> </table>	PPs Submission	There is no overburden dumps in this mine. Agreed to Comply Attachment: NA
PPs Submission	There is no overburden dumps in this mine. Agreed to Comply Attachment: NA				
13	MINING PLAN	The overburden (OB) generated during the mining operation shall be stacked at earmarked dump site(s) only and it should not be kept active for a long period of time and their phase-wise stabilization shall be carried out. Proper terracing of OD dumps(s) shall be carried out. The over burden dump(s) shall be scientifically vegetated with suitable native species to prevent erosion and surface runoff. In critical areas, use of geo textiles shall be undertaken for stabilization of dumps. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining. Compliance status should be submitted to the Ministry of Environment, Forest and Climate Change and its regional office,	<table border="1"> <tr> <td data-bbox="987 344 1227 488">PPs Submission</td> <td data-bbox="1227 344 1984 488">There is no over burden generation in this mine. Being Complied Attachment: NA</td> </tr> </table>	PPs Submission	There is no over burden generation in this mine. Being Complied Attachment: NA
PPs Submission	There is no over burden generation in this mine. Being Complied Attachment: NA				

		Chennai on six monthly basis.		
14	WATER QUALITY MONITORING AND PRESERVATION	Catch drains and siltation ponds of appropriate size shall be constructed for the working pit, temporary OB and mineral dumps to arrest flow of silt and sediment directly into the adjoining River and other water bodies. The water so collected should be utilized for watering the mine area, roads, greenbelt development etc. The drains should be regularly desilted particularly after the monsoon and maintained properly.	PPs Submission	There is no over burden generation in this mine and no river or water body in the adjoining area. Being Complied Attachment: NA
15	WATER QUALITY MONITORING AND PRESERVATION	Dimension of the retaining wall at the toe of the OB dump(s) and the OB benches within the mine to check run-off and siltation should be based on the rain fall data.	PPs Submission	There is no overburden dumps in this mine. Agreed to Comply Attachment: NA
16	GREENBELT	Plantation shall be raised in a specified area including a 7.5 m wide green belt in safety zone around the mining lease, OB Dump(s), along the roads, etc., by planting the native species in	PPs Submission	Plantation is being done in phase manner with native plant species. 7.5 m wide greenbelt is being developed. Overall 4.24 Ha of area was developed with 4,137 Nos. of saplings. Being Complied Attachment: Click to View

		consultation with the local DFO/agriculture department. In addition, plantation shall be also raised in the backfilled and reclaimed area and around water body.			
17	AIR QUALITY MONITORING AND PRESERVATION	Effective safeguard measures, such as a regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as around crushing and screening plant, loading and unloading point and all transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the ambient Air Quality parameters confirm to the norms prescribed by the Central Pollution Control Board in this regard.	<table border="1"> <tr> <td>PPs Submission</td> <td>All measures such as water sprinkling along the roads, dump crusher, conveyor belts etc., are being implemented at areas prone to air pollution, to ensure parameters confirm to the AAQ standards. Being Complied Attachment: NA</td> </tr> </table>	PPs Submission	All measures such as water sprinkling along the roads, dump crusher, conveyor belts etc., are being implemented at areas prone to air pollution, to ensure parameters confirm to the AAQ standards. Being Complied Attachment: NA
PPs Submission	All measures such as water sprinkling along the roads, dump crusher, conveyor belts etc., are being implemented at areas prone to air pollution, to ensure parameters confirm to the AAQ standards. Being Complied Attachment: NA				
18	AIR QUALITY MONITORING AND PRESERVATION	Regular monitoring of water quality upstream and downstream of perennial nallahs falling in the impact zone shall be carried out and record the monitoring data should be maintained and submitted to MoEF&CC, its regional office, Chennai, CGWA, Regional	<table border="1"> <tr> <td>PPs Submission</td> <td>There is no perennial nallahs falling in the mine lease. Complied Attachment: NA</td> </tr> </table>	PPs Submission	There is no perennial nallahs falling in the mine lease. Complied Attachment: NA
PPs Submission	There is no perennial nallahs falling in the mine lease. Complied Attachment: NA				

		Director, CGWB, SPCB and CPCB.		
19	AIR QUALITY MONITORING AND PRESERVATION	Appropriate measures shall be taken for the treatment of the upper catchment of the mine lease area.	PPs Submission	There is no upper catchment in the mining lease area. Being Complied Attachment: NA
20	Statutory compliance	The project authority should implement suitable conservation measure to augment ground water resources in the area in consultation with the regional director, CGWB.	PPs Submission	The mineral excavated area will serve the purpose of water harvesting pit and helps to augment ground water level. Being Complied Attachment: NA
21	Statutory compliance	Regular monitoring of ground water level and quality shall be carried out in and around the mine lease by establishing a network of existing wells and installing new piezometers during the mining operations. The periodic monitoring [(at least four times in a year ? pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) once in each season)] shall be carried out in consultation with the state ground water board/Central ground water authority and the	PPs Submission	Piezo wells are provided along periphery of mining lease area and ground water quality; water level is being monitored periodically 4 times in a year and report being submitted to CGWA & CGWB. Being Complied Attachment: Click to View

		data thus collected may be sent regularly to the MoEF&CC, and its regional office Chennai, the CGWA is observed that the ground water table is getting depleted due to the mining activity; necessary corrective measures shall be carried out.		
22	Statutory compliance	The project proponent shall obtain necessary prior permissions of the competent authorities for drawl of requisite quantities of water, required for the project.	PPs Submission	Water required for this mine is used from rain water harvesting pit of adjacent mine Choutapalli Limestone mines - 1&2. Complied Attachment: NA
23	Statutory compliance	Suitable rain water harvesting measures on long term basis shall be planned and implemented in consultation with the Regional Director, Central Ground Water Board.	PPs Submission	In due course of time, the mineral excavated area will serve the purpose of water harvesting pit and helps to augment ground water level. Being Complied Attachment: NA
24	WATER QUALITY MONITORING AND PRESERVATION	Appropriate mitigative measures should be taken to prevent pollution of nearby River in consultation with the State Pollution Control Board.	PPs Submission	There is no river is present nearby the mining lease area. Being Complied Attachment: NA

25	AIR QUALITY MONITORING AND PRESERVATION	Vehicular emission shall be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in mining operations and in transportation of mineral. The mineral transportation shall be carried out through the covered trucks only and vehicles carrying the mineral shall not be overloaded.	PPs Submission	The periodical maintenance of the vehicles is carried as per OEM recommendations & the vehicle emissions monitored periodically. Being Complied Attachment: NA
26	MINING PLAN	Controlled blasting shall be practiced. The mitigative measures for control of ground vibrations and to arrest fly rocks and boulders should be implemented.	PPs Submission	Blasting is being done only during daytime as recommended by DGMS. Ground vibrations and fly rock are being well controlled by using non-el bottom initiation detonators. Being Complied Attachment: NA
27	MINING PLAN	Drills shall either be operated with dust extractors or equipped with water injection system.	PPs Submission	Wet drilling is being practiced. Being Complied Attachment: NA
28	AIR QUALITY MONITORING AND PRESERVATION	Mineral handling area shall be provided with adequate number of high efficiency dust extraction system. Loading and unloading areas including all the transfer points should also have efficient dust control	PPs Submission	Water spraying arrangement is provided at loading area and at crusher dump hopper (unloading area). Bag filters are provided at crusher and all transfer points and are being maintained properly. Being Complied Attachment: NA

		arrangements. These should be properly maintained and operated.		
29	WATER QUALITY MONITORING AND PRESERVATION	Sewage treatment plant shall be installed for the colony. ETP shall also be provided for the workshop and waste water generated during the mining operation.	PPs Submission	STP of 400 KLD is provided for the colony to treat domestic sewage. Workshop Waste water generated from vehicle washings are routed through Oil & Grease separator then followed by sedimentation trap. Being Complied Attachment: NA
30	Human Health Environment	Pre-placement medical examination and periodical medical examination of the works engaged in the project shall be carried out and records maintained. For the purpose, schedule of health examination of the workers should be drawn and followed accordingly.	PPs Submission	Pre placement medical examination is done for the new joiners. Periodic medical check-up conducted for 367 employees by external agency M/s. Yodha Diagnosis, Hyderabad on 10th - 11th Sep, 2023. Records of the same are being maintained. Being Complied Attachment: NA
31	Statutory compliance	Regular monitoring of free silica in the dust will be carried out and records maintained. It shall be ensured that the levels of silica do not exceed the prescribed limit. The workers will be provided with personal protective measures to guard against inhaling silica dust.	PPs Submission	Free silica is monitored and reports are being maintained. Free silica content in the dust is well below the prescribed limits. Being Complied Attachment: NA
32	Human Health Environment	Provision shall be made for the housing of construction labour	PPs Submission	Not applicable. There no construction activities take place in the mine area.

		<p>within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. the housing may in the form of temporary structures to be removed after the completion of the project.</p>	<p>Being Complied Attachment: NA</p>
33	MINING PLAN	<p>The project proponent should take all precautionary measures during mining operation for the conservation and protection of endangered flora as well as endangered fauna in the study area. Action plan for the conservation flora and fauna shall be prepared and implemented with in consultation with the State Forest and Wildlife Department. Necessary allocations for the funds for implementation of the conservation plan shall be made and the funds so allocated shall be included in the project cost. Copy of action plan may be submitted to the Ministry and its Regional</p>	<p>PPs Submission There is no endangered flora and fauna found in the project area. Certificate issued by forest Department Nalgonda vide letter RC No 565/2008/S5, Dated 09.06.2008. Being Complied Attachment: NA</p>

		Office at Chennai within 3 months.		
34	AIR QUALITY MONITORING AND PRESERVATION	<p>The critical parameters such as RSPM (Particulate Matter less than 10 microns i.e. PM 10) and NOx in the ambient air within the impact zone, peak particle velocity at 300m distance or within the nearest habitation, whichever is closer shall be monitored periodically. Further, quality of discharged water shall also be monitored [(TDS, DO, pH and Total Suspended Solids (TSS))]. The monitored data shall be uploaded on the website of the company as well as displayed on a display board at project site at suitable location near the main gate of the company in public domain. The circular No. J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by ministry of Environment, Forests & Climate Change, which is available on the website of the ministry. www.envfor.nic shall also be referred in this regard.</p>	PPs Submission	<p>Mine development activities commenced on 22.02.2018. PM10, PM2.5, SO2 & NOx are regularly being monitored. We will monitor ppv within 300 meter of nearest habitation. Being Complied Attachment: NA</p>

35	MINING PLAN	A final mine closure plan along with details corpus fund should be submitted to the ministry of environment, Forest & Climate Change 5 years in advance of final mine closure for approval.	PPs Submission	Presently, mine is active. Final mine closure plan will be submitted 5 years in advance whenever mine will close. Being Complied Attachment: NA
36	PUBLIC HEARING	The project proponent shall undertake all the commitments made during the public hearing and effectively address the concerns raised by the locals in the public hearing as well as during consideration of the project, while implementing the project.	PPs Submission	Commitments made during public hearing are being addressed. Being Complied Attachment: NA

General Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	MINING PLAN	No change in mining technology and scope of working should be made without prior approval of the Ministry of Environment, Forests & Climate Change.	PPs Submission	Opencast, fully mechanized mining method is being adopted. If any change in mining technology and scope of working, prior approval will be obtained from the Ministry. Being Complied Attachment: NA
2	MINING PLAN	No change in the calendar plan including excavation, quantum of mineral limestone and	PPs Submission	No change in the calendar plan including excavation, quantum of mineral and waste will be made.

		waste if any should be made.		Being Complied Attachment: NA
3	AIR QUALITY MONITORING AND PRESERVATION	Data on ambient air quality RSPM (Particulate matter with size less than 10micron i.e.PM10) and NOx) should be regularly submitted to the MoEF & CC including its Regional Office located at Bangalore Chennai and the SPCB/CPCB once in six months.	PPs Submission	Ambient air quality data is being sent to Regional Office of the MoEF&CC, Hyderabad along with half yearly compliance report. Being Complied Attachment: Click to View
4	AIR QUALITY MONITORING AND PRESERVATION	Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.	PPs Submission	Utmost care is being taken to control fugitive emissions such as wet drilling as well as water spraying on haul roads. Water spraying is being done at loading and unloading points to control fugitive emissions. Being Complied Attachment: Click to View
5	Noise Monitoring & Prevention	Measures should be taken for control of noise levels below 85 dB(A) in the work environment. Workers engaged in operations of HEMM, etc. should be provided with ear plugs / muffs.	PPs Submission	Noise levels are monitored at 4 locations in the work zone on quarterly basis through third party. S.No Location dB(A) Apr-Jun'23 Jul-Sep'23 1. Drilling Point 84.20 83.60 2. Dumper Cabin 77.80 79.10 3. Haulage Road 75.30 76.50 4. Loading Area 79.90 78.40 Being Complied Attachment: NA
6	WATER QUALITY MONITORING AND PRESERVATION	Industrial wastewater (workshop and waste water from the mine)	PPs Submission	There is no waste water generation from the mine. Vehicles used for mining operations are maintained at existing workshop at Choutapalli limestone mine-1.

		should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December 1993 or as amended from time to time. Oil and grease trap should be installed before discharge of workshop effluents.		Complied Attachment: NA
7	Human Health Environment	Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects. Occupational health surveillance Programme of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.	PPs Submission	As a company policy all personal workings in mine site are provided with PPE. Adequate training and information on safety and health aspects are regularly provided. Being Complied Attachment: NA
8	MISCELLANEOUS	A separate environmental management cell with suitable qualified personnel should be set up under the control of a Senior Executive, who will report directly to the Head of the Organization.	PPs Submission	Environmental Management Cell is in place. Organization structure for environmental management. Being Complied Attachment: Click to View

9	MISCELLANEOUS	The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year-wise expenditure should be reported to the Ministry of Environment, Forests & Climate Change and its Regional Office located at Chennai.	PPs Submission	During the period Apr'23 - Sep'23, MHIPL has spent ₹ 8.35 lakh recurring expenditure towards environmental protection measures (Greenbelt development & maintenance, Top Soil Management, Dust suppression and environmental monitoring). Being Complied Attachment: NA
10	MISCELLANEOUS	The project authority should inform to the Regional Office located at Chennai regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	PPs Submission	We have informed to Regional Office, Chennai for start of land development work vide our letter No. MHIPL/MCW-CLM-II/ENV/2017-18/142, dated 22nd March, 2018. Being Complied Attachment: NA
11	MISCELLANEOUS	The State Pollution Control Board should display a copy of the clearance letter at the Regional Office, District Industry Centre and Collector's Office / Tehsildar's Office for 30 days.	PPs Submission	Complied by SPCB. Complied Attachment: NA
12	MISCELLANEOUS	The Regional Office of this Ministry located at Chennai shall monitor compliance of the stipulated conditions. The	PPs Submission	Full co-operation will be extended to visiting officers. Being Complied Attachment: NA

		project authorities should extend full Cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information / monitoring reports.		
13	MISCELLANEOUS	The Project proponent shall submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copy as well as by e-mail) to the Ministry of Environment, Forest & Climate Change, its Regional Office Chennai, the respective Zonal office of Central Pollution control Board the State Pollution Board. The Proponent shall upload the status of compliance of the Environmental Clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the MoEF&CC, Chennai, the respective Zonal Office of CPCB and SPCB.	PPs Submission	Latest compliance report for the period of Oct?22 - Mar?23 submitted on 29.05.2023 with vide Ref No. MHIPL/MCW/ENV/2022-23/96 Dt. 26.05.2023. Being Complied Attachment: NA

14	MISCELLANEOUS	A copy of the clearance letter shall be sent by proponent to concerned Panchayat, Zila Parishad / Municipal Corporation, Urban Local Body and the local NGO, if any, from whom and suggestion / representation, If any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent.	<table border="1"> <tr> <td data-bbox="987 92 1227 272">PPs Submission</td> <td data-bbox="1227 92 1984 272">Clearance Letter submitted to Choutapalli Village Panchayat with Ref. No. MHIPL/P&A/2015-16/465 Dated 22.10.2016. Complied Attachment: Click to View</td> </tr> </table>	PPs Submission	Clearance Letter submitted to Choutapalli Village Panchayat with Ref. No. MHIPL/P&A/2015-16/465 Dated 22.10.2016. Complied Attachment: Click to View
PPs Submission	Clearance Letter submitted to Choutapalli Village Panchayat with Ref. No. MHIPL/P&A/2015-16/465 Dated 22.10.2016. Complied Attachment: Click to View				
15	MISCELLANEOUS	The Environmental Statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall be put on the website of the company along with the status of compliance of Environmental Clearance conditions and shall also be sent to the Regional Office of the MoEF&CC, Chennai by e-mail.	<table border="1"> <tr> <td data-bbox="987 667 1227 884">PPs Submission</td> <td data-bbox="1227 667 1984 884">Environmental Statement in Form-V for the period 2022-23 was submitted vide our letter no.
