Proposal Details

Proposal No	IA/TG/MIN/106308/2 019	Category	Non-Coal Mining		
Proposal Name	MY HOME INDUSTRIES PRIVATE LIMITED - LIMESTONE MINE - 252.407 Ha				
Plot / Survey/ Khasra No.		Village(s)		Sub-District(s)	
State	TELANGANA	District	SURYAPET		
MoEF File No	J-11015/21/2017- IA.II(M)	Name of the Entity/ Corporate Office	MY HOME INDUSTRIES PRIVATE LIMITED	Entity's PAN	NA
Entity Name as per PAN	NA	Entity details mentioned above is correct ?	Agree

Compliance Reporting Details

Reporting Year	2023	Reporting Period	01 Dec(01 Apr - 30 Sep)
Remark(if any)	Enclosed here with Six Monthly Environmental Clearance Compliance report for the period APRIL'2023 to SEPTEMBER'2023 of MY HOME INDUSTRIES PRIVATE LIMITED - LIMESTONE MINE.		

Details of Production and Project Area

Date of Commencement of Project/Activity 10-02-2023

	Project Area as per EC Granted(ha.)	Actual Project Area in Possession(ha.)
Private	252.407	252.407
Revenue Land	0	0
Forest	0	0
Others	0	0
Total	252.407	252.407

PRODUCTION CAPACITY

Sr.No.	Name of the Product	Units	As per EC Granted	As per CTO Granted	CTO ID	Valid Up To	Production during last financial year
1	LIMESTONE	Million Tons per Annum (MTPA)	1.0	1.0	220523750568	30-04-2027	0.002799

Conditions

Specific Conditions

Sr.No.	Condition Type	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	Statutory compliance	The Project Proponent will allow the farmers to continue the farming on the northern side with proper safety measures to protect the farmers as and when the PP approach the farming area safety distance has to be maintained between the mine working and the farming land and as per DGMS Guidelines.	PPs Submission	We are permitting for continuing agricultural practices in undisturbed part of mining lease area. Safety distance being maintained as per DGMS norms Being Complied Attachment: NA
2	Statutory compliance	PP shall maintain the safety distance of 200m on side of the Nagarjunasagar left Bank canal with the dense plantations inside the mine lease area. In order to properly maintain the safety barrier between the Nagarjunasagar left Bank canal and the mine lease area, the Project Proponent shall be create greenbelt on the eastern side with safety distance of 50m with thick plantation instead of	PPs Submission	Safety distance will be maintained as per IBM guidelines. Thick plantation of 7.5 m barrier zone in ML area with 10% fruit bearing trees will be developed. Being Complied Attachment: NA

		7.5m and atleast 10% of the fruit bearing trees shall be planted.		
3	Statutory compliance	Since the Nagarjunasagar Left Bank canal is used for irrigation, the project proponent should take all precautionary measures to prevent any damage to canal and pollution in the canal.	PPs Submission	All precautionary measures will be taken and implemented when mining activity is approaching near to canal and pollution in the canal. Being Complied Attachment: NA
4	Statutory compliance	The Project Proponent shall ensure the safety zone with the proper fencing around the mine towards the RF Block located about 8m away from the boundary of Yepalamadhavaram RF Block, Compt. No.4 from the mine lease area.	PPs Submission	Proper fencing will be ensured towards the RF Block located about 8m away from the boundary of Yepalamadhavaram RF Block from the mine lease Being Complied Attachment: NA
5	Statutory compliance	The Project Proponent shall install the continuous ambient air quality monitoring stations in such numbers as per the scientific study and in consultation with CPCB.	PPs Submission	We have installed 1 no CAAQM Station and it is under observation. Being Complied Attachment: NA

6	Statutory compliance	<p>The Project Proponent shall monitor the ground induced blasting vibrations at the sensitive receptors in the vicinity regularly for every blast performed and the values of " peak particle velocity" and "Air Over Pressure" shall be maintained below the permissible values prescribed by the DGMS, from time to time. The recommendations / preventive measures to be prescribed by the NITK-Suratkal for the blasting study, if any shall be complied by the project proponent and implementation status to prevent the damage towards Nagarjunasagar Left Bank canal should be submitted to the IRO.</p>	<table border="1"> <tr> <td data-bbox="987 92 1227 309">PPs Submission</td> <td data-bbox="1227 92 1973 309"> <p>Monitoring the ground induced blasting vibrations with minimate instrument and the results are within permissible values prescribed by DGMS. Being Complied Attachment: NA</p> </td> </tr> </table>	PPs Submission	<p>Monitoring the ground induced blasting vibrations with minimate instrument and the results are within permissible values prescribed by DGMS. Being Complied Attachment: NA</p>
PPs Submission	<p>Monitoring the ground induced blasting vibrations with minimate instrument and the results are within permissible values prescribed by DGMS. Being Complied Attachment: NA</p>				
7	Statutory compliance	<p>The Project Proponent shall be carry out the plantation with the survival rate of not less than 90% by planting 10 ft seedlings. Casualities should be replaced with new saplings every year and be counted separately other than the total proposed saplings. PP shall complete the peripheral plantation</p>	<table border="1"> <tr> <td data-bbox="987 1031 1227 1248">PPs Submission</td> <td data-bbox="1227 1031 1973 1248"> <p>Greenbelt is being developed in a phased manner. For period of Apr?23- Sep?23 greenbelt developed with 235 No?s of sapling in an area of 0.15 Ha. Being Complied Attachment: NA</p> </td> </tr> </table>	PPs Submission	<p>Greenbelt is being developed in a phased manner. For period of Apr?23- Sep?23 greenbelt developed with 235 No?s of sapling in an area of 0.15 Ha. Being Complied Attachment: NA</p>
PPs Submission	<p>Greenbelt is being developed in a phased manner. For period of Apr?23- Sep?23 greenbelt developed with 235 No?s of sapling in an area of 0.15 Ha. Being Complied Attachment: NA</p>				

		<p>within 6 months from the start of mining operations. The data for such saplings should be furnished during six monthly compliance report along with the progressive plantation. PP shall undertake the progressive bench plantation up to HFL for eco restoration of water bodies.</p>			
8	Statutory compliance	<p>The budget of Rs. 59 Lakhs to address the concern raised by the public including in the public hearing to be completed within 3 years from the date of start of mining operations. PP shall comply with all action plans made for public hearing concerns and make regular maintenance and record the progressive activity outcomes.</p>	<table border="1"> <tr> <td>PPs Submission</td> <td> <p>Concerns raised in the public hearing will be completed within 3 years from the start of mining operation. Being Complied Attachment: NA</p> </td> </tr> </table>	PPs Submission	<p>Concerns raised in the public hearing will be completed within 3 years from the start of mining operation. Being Complied Attachment: NA</p>
PPs Submission	<p>Concerns raised in the public hearing will be completed within 3 years from the start of mining operation. Being Complied Attachment: NA</p>				
9	Statutory compliance	<p>The Project Proponent shall adhere to the proposed skill development programme earmarked with a budget of Rs. 30.0 Lakhs to enhance the skill of the local people. The data should be maintained for the training imparted to</p>	<table border="1"> <tr> <td>PPs Submission</td> <td> <p>Skill Development Programme is being taken up and maintain the data of the trained persons. Being Complied Attachment: NA</p> </td> </tr> </table>	PPs Submission	<p>Skill Development Programme is being taken up and maintain the data of the trained persons. Being Complied Attachment: NA</p>
PPs Submission	<p>Skill Development Programme is being taken up and maintain the data of the trained persons. Being Complied Attachment: NA</p>				

		the persons and the outcome of the training, for the assessment of the training program should be analyzed periodically and improved accordingly.		
10	Statutory compliance	The Project Proponent should implement the rehabilitation of project affected families (PAFs) and payment of compensation to PAFs as per the policy and guidelines of the Central / State Government as provided under the law.	PPs Submission	Will be followed accordingly. Being Complied Attachment: NA
11	Statutory compliance	The Project Proponent should explore the possibility of using CNG/electric vehicles instead of Diesel for cleaner production options to reduce the emission.	PPs Submission	Will explore the possibility of using CNG/ Electricity vehicles for cleaner production option. Being Complied Attachment: NA
12	Statutory compliance	Regular surveillance on Silicosis shall be carried through regular occupational health check-up every year for mine workers.	PPs Submission	Silicosis surveillance will be carried out accordingly as per DGMS norms. Agreed to Comply Attachment: NA

General Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	Statutory compliance	This Environmental Clearance (EC) is subject to orders /Judgment of Hon?ble Supreme Court of India, Hon?ble High Court, Hon?ble NGT and other Court of Law, Common Cause conditions as may be applicable.	PPs Submission	Agreed to comply Agreed to Comply Attachment: NA
2	Statutory compliance	The Project Proponent complies with all the statutory requirements and judgment of Hon?ble Supreme Court dated 2nd August,2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations	PPs Submission	?Grant of Mining lease ?G.O Ms. No. 03 & 05. Execution of Mining lease (Proceeding No.3779/ML/MS/2015.. Approval of Mining Plan from IBM (Letter No: Ap/NLG/MP/Lst-75/Hyd.) Complied Attachment: NA
3	Statutory compliance	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon?ble	PPs Submission	Will be followed accordingly, No illegal mining will be carried out. Mining operations is commenced on10thFebruary?2023. Being Complied Attachment: NA

		Supreme Court dated 2nd August, 2017 in Writ petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.		
4	Statutory compliance	The Project Proponent shall follow the mitigation measures provided in MoEF&CC's Office Memorandum No. Z-11013/57/2014-IA.II (M) dated 29th October, 2014, titled ? Impact of mining activities on Habitations-issues related to the mining projects wherein Habitation and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area ?.	PPs Submission	No habitations & villages are the part of the mine lease. We are following the mitigation measures to control environmental pollution. Being Complied Attachment: NA
5	Statutory compliance	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. If any from whom suggestion/ representation has been received while processing the proposal.	PPs Submission	Copy of the Environmental Clearance is submitted to Mellacheruvu & Yepalamadhavaram Gram Panchayats vide our letter Ref No. MHIPL/ENV/2021-22/1&2 dated 17.02.2022. Complied Attachment: Click to View
6	Statutory compliance	State Pollution Control Board / Committee shall be responsible for display of this EC letter at its Regional office, District Industries Center and Collector's office /	PPs Submission	Complied by SPCB. Complied Attachment: NA

		Tehsildar's Office for 30 days.		
7	Statutory compliance	<p>The Project Authorities should widely advertise about grant of this EC letter by printing the same in at least two local newspaper, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within in 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board / Committee and website of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEF&CC Regional Office for compliance and record.</p>	PPs Submission	<p>The grant of EC was published in Telugu newspaper? NAMASTE TELANGANA? & English newspaper ?THE HANS INDIA? dated 12.02.2022. A copy of the advertisement is submitted to MoEF&CC ? IRO, Hyderabad Complied Attachment: Click to View</p>
8	Statutory compliance	<p>The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining</p>	PPs Submission	<p>Will inform to MoEF&CC, if any change in ownership of the mining lease. Agreed to Comply Attachment: NA</p>

		lease is transferred. PP need to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.		
9	AIR QUALITY MONITORING AND PRESERVATION	The Project Proponent shall install a minimum of 3 (Three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120 is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM 2.5, NO2, CO and SO2 etc. as per the Methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain	PPs Submission	We have installed 1 no CAAQM Station and it is under observation. Being Complied Attachment: NA

the exposure characteristics at specific places. The above data shall be digitally displayed within 3 months in front of the main gate of the mine site.

10	AIR QUALITY MONITORING AND PRESERVATION	<p>Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments / machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by</p>	<table border="1"> <tr> <td data-bbox="972 379 1227 651">PPs Submission</td> <td data-bbox="1227 379 2002 651"> <p>Regular water sprinkling is being carried on haul roads for suppression of dust generation. Ambient air quality data is being sent to Regional Office of the MoEF&CC, Hyderabad along with half yearly compliance report. Being Complied Attachment: NA</p> </td> </tr> </table>	PPs Submission	<p>Regular water sprinkling is being carried on haul roads for suppression of dust generation. Ambient air quality data is being sent to Regional Office of the MoEF&CC, Hyderabad along with half yearly compliance report. Being Complied Attachment: NA</p>
PPs Submission	<p>Regular water sprinkling is being carried on haul roads for suppression of dust generation. Ambient air quality data is being sent to Regional Office of the MoEF&CC, Hyderabad along with half yearly compliance report. Being Complied Attachment: NA</p>				

		the MoEF&CC/Central Pollution Control Board		
11	WATER QUALITY MONITORING AND PRESERVATION	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEF&CC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.	PPs Submission	Necessary permission from CGWA will be obtained before intersection of ground water table due to mining operations. Being Complied Attachment: NA
12	WATER QUALITY MONITORING AND PRESERVATION	Project Proponent shall regularly monitor and maintain records w.r.t ground water levels and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central	PPs Submission	Will be followed accordingly, Regular monitoring of ground water levels around the mine lease is being carried out and records are maintained. Being Complied Attachment: NA

		Ground Water Authority / State Ground Water Department. The report on changes in Ground Water level and quality shall be submitted on six-monthly basis for the Regional Office of the Ministry, CGWA and State Groundwater Department /State Pollution Control Board.		
13	WATER QUALITY MONITORING AND PRESERVATION	The Project Proponent shall undertake regular monitoring of natural water course/ water resources / springs and perennial nallahs existing/ flowing in and around the mine lease including upstream and downstream. Sufficient number of gullies shall be provided at appropriate places within mine lease for management of water. The parameters to be monitored shall include their water quality vis-a-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/or alteration be made to water bodies during mining operation without justification and prior approval of MoEF&CC. The	PPs Submission	Will be followed accordingly, Regular monitoring of ground water levels around the mine lease is being carried out and records are maintained. Will be followed accordingly. Being Complied Attachment: NA

monitoring of water courses/bodies existing in lease area shall be carried out four times in a year viz. pre-monsoon (April / May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office. Central Ground Water Authorities and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.

14	WATER QUALITY MONITORING AND PRESERVATION	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the	PPs Submission	Limestone mines comes in non-coal mine category, the outcome of raw material is limestone. There is no acid mine drainage and metal contamination in the mine lease area. Hence, the clause is not applicable to us. Being Complied Attachment: NA
----	---	--	----------------	--

		<p>website of the company as well as displayed at the project site in public domain on a displayed board. At a suitable location near the main gate of the Company. The circular No. J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment Forest and Climate Change may also be referred in this regard.</p>		
15	WATER QUALITY MONITORING AND PRESERVATION	<p>Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with central Ground Water Board / State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEF&CC annually.</p>	PPs Submission	<p>Rainwater harvesting measures will be implemented and report of water recharged quantity will be submitted to Regional Office MoEF&CC annually after implementation of mining operations. Being Complied Attachment: NA</p>
16	WATER QUALITY MONITORING AND PRESERVATION	<p>Industrial waste water (Workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to</p>	PPs Submission	<p>Mining is under implementation stage, No wastewater is being generated. Will be followed accordingly as and when wastewater generated. Being Complied Attachment: NA</p>

		time. The standards shall be prescribed through Consent to operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through oil and grease trap.		
17	WATER QUALITY MONITORING AND PRESERVATION	The water balance / water auditing shall be carried out and measures for reducing the consumption of water shall be taken up and reported to the Regional Office for the MoEF&CC and State Pollution Control Board / Committee.	PPs Submission	Water balance Audit will be carried out and report will be submitted to Regional Office for the MoEF&CC and state Pollution Control Board / Committee. Agreed to Comply Attachment: NA
18	Noise Monitoring & Prevention	The peak particle velocity at 500 m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.	PPs Submission	Will be monitored accordingly as per DGMS guidelines. Being Complied Attachment: NA
19	Noise Monitoring & Prevention	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the	PPs Submission	At present, the mining operations are restricted to day light hours. Hence, no disturbances/disorders due to Illumination and sound at night to both human and animal population. Being Complied Attachment: NA

villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights / masks away from the villagers and keeping the noise levels well within the prescribed limits for day / night hours.

20	Noise Monitoring & Prevention	<p>The project Proponent shall take measures for control of noise levels below 85 dB(A) in the work environment. The workers engaged in operations of HEMM, etc should be provided with ear plugs / muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers / personals / laborers are working</p>	<table border="1"> <tr> <td data-bbox="972 630 1227 938">PPs Submission</td> <td data-bbox="1227 630 2002 938"> <p>Will be monitor accordingly, All workers engaged in mines will be provided with safety personal Protective Equipment such as helmet, goggles, shoes, ear plugs etc. and protective respiratory devices i.e, nose masks etc., along with adequate awareness, training and information on Safety & Health aspects. Being Complied Attachment: NA</p> </td> </tr> </table>	PPs Submission	<p>Will be monitor accordingly, All workers engaged in mines will be provided with safety personal Protective Equipment such as helmet, goggles, shoes, ear plugs etc. and protective respiratory devices i.e, nose masks etc., along with adequate awareness, training and information on Safety & Health aspects. Being Complied Attachment: NA</p>
PPs Submission	<p>Will be monitor accordingly, All workers engaged in mines will be provided with safety personal Protective Equipment such as helmet, goggles, shoes, ear plugs etc. and protective respiratory devices i.e, nose masks etc., along with adequate awareness, training and information on Safety & Health aspects. Being Complied Attachment: NA</p>				

		without personal protective equipment.		
21	MINING PLAN	The Project proponent shall adhere to approved mining plan, inter alia, including, total excavation (quantum of mineral, waste, over burden, inter burden and top soil etc.); mining technology; lease area; scope of working (method of mining, overburden & dump management, OB & dump mining, mineral transportation mode, ultimate depth of mining, concurrent reclamation and reclamation at mine closure; land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life; etc.)	PPs Submission	We will adhere to the approved mining plan / guidelines, mining technology and follow the scope of working. Being Complied Attachment: NA
22	MINING PLAN	The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved mining plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP	PPs Submission	We will follow the land use of mining lease area as per approved mining plan. We will ensure the monitoring of rehabilitation areas becomes self-sustaining. Reports will be submitted to MoEF&CC. Being Complied Attachment: NA

		shall ensure the monitoring and management of rehabilitation areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEF&CC and its concerned Regional Office.		
23	LAND RECLAMATION	The overburden (OB) waste and topsoil generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB / waste dumps / topsoil dump like height, width and angle of slope shall be governed as per the approved Mining Plan and the guidelines / circulars issued by DGMS The topsoil shall be used for land reclamation and plantation.	PPs Submission	Will be followed accordingly. There is no overburden/waste generation are anticipated from this mine. Generated topsoil is being stacked as per approved mining plan and follow DGMS norms. Being Complied Attachment: NA
24	LAND RECLAMATION	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The	PPs Submission	There is no over burden in the Mining Lease areas and the generated top soil will be utilized for afforestation and back filling of mined out pit. So, there is no possibility of formation of permanent dumps. Plantation of native species only will be done to maintain slope stability if any dumps will be formed in future.

		<p>selection of local species regulates local climatic parameters and help in adaption of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer / compactors thereby ensuring proper filling / leveling of dump mass. In critical areas, use of geo-textiles / geo-membranes / clay-liners /Bentonite etc., shall be under taken for stabilization of the dump.</p>	<table border="1"> <tr> <td data-bbox="972 68 1227 164"></td> <td data-bbox="1227 68 1984 164"> <p>Being Complied Attachment: NA</p> </td> </tr> </table>		<p>Being Complied Attachment: NA</p>
	<p>Being Complied Attachment: NA</p>				
<p>25</p>	<p>LAND RECLAMATION</p>	<p>Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil /OB / Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/River / Pond etc.) The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains / sedimentation sumps etc.</p>	<table border="1"> <tr> <td data-bbox="972 850 1227 1046"> <p>PPs Submission</p> </td> <td data-bbox="1227 850 1984 1046"> <p>Garland drains will be constructed along the boundaries of mine pit as the mine progresses. Being Complied Attachment: NA</p> </td> </tr> </table>	<p>PPs Submission</p>	<p>Garland drains will be constructed along the boundaries of mine pit as the mine progresses. Being Complied Attachment: NA</p>
<p>PPs Submission</p>	<p>Garland drains will be constructed along the boundaries of mine pit as the mine progresses. Being Complied Attachment: NA</p>				

		shall be de-silted regularly, particularly after monsoon season and maintained properly.		
26	LAND RECLAMATION	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments / silt material. The sedimentation pits / sumps shall be constructed at the corners of the garland drains.	PPs Submission	Will be followed accordingly. The mining activity is commenced on 10th February?2023 and initial box cut under preparation stage. Being Complied Attachment: NA
27	LAND RECLAMATION	No transportation of the minerals shall be allowed in case of roads passing through villages / habitations. In such cases, PP shall construct a "Bypass" road for the	PPs Submission	No transportation of mineral passing through the roads in villages/habitations. Regular water sprinkling will be done on haul roads to control the fugitive dust generated from the transportation. PUC certificate for all the transportation vehicles are obtained from authorized pollution testing centers.

purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village / rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all

Being Complied
Attachment: NA

		the vehicles from authorized pollution testing centers (if applicable in case of road transport).			
28	LAND RECLAMATION	<p>The main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipment?s like bag filters, vacuum suction hoods, dry fogging system etc., shall be installed at crushers, belt-conveyors and others areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures</p>	<table border="1"> <tr> <td>PPs Submission</td> <td> <p>Regular water sprinkling is being carried on haul roads through tanker-mounted water sprinkling system for suppression of dust generation. ?
