2023

Reporting Period

01 Dec(01 Apr - 30 Sep)

Remark(if any)

Details of Production and Project Area

Date of Commencement of Project/Activity

21-03-2011

	Project Area as per EC Granted(ha.)	Actual Project Area in Possession(ha.)
Private	0	0
Revenue Land	0	0
Forest	0	0
Others	0	0
Total	0	0

PRODUCTION CAPACITY

Sr.No.	Name of the Product	Units	As per EC Granted	As per CTO Granted	CTO ID	Valid Up To	Produced during financial year
1	CEMENT	Million Tons per Annum (MTPA)	0.500	0.500	APPCB/VSP/VSP/165/CFO/HO/2021	31-01-2026	0.19584

Conditions

Specific Conditions

Sr.No.	Condition Type	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	AIR QUALITY MONITORING AND PRESERVATION	At no time the particulate emissions from the vertical roller mill / Ball mill should exceed 50 mg/Nm ³ . The total dust from all the sections shall not exceed 250 mg/Nm ³ . Online monitoring equipment shall be installed to record the emissions. Interlocking facility should be provided in the pollution control equipment so that in the even of the pollution control equipment not working, the feeding of raw materials is stopped automatically. The D.G.Sets shall be provided with adequate stack height.	PPs Submission	PM emission from Ball Mill stack is being maintained < 30 mg/Nm ³ as per GSR 612(E) dated 25.08.2014. Online Continuous emission monitoring system (OCEMS) installed to Ball mill bag-house stack and connected to APPCB & CPCB servers. Complied Attachment: NA
2	AIR QUALITY MONITORING AND PRESERVATION	Ambient air quality including ambient noise levels must not exceed the standards notified by the MoE&F, GOI/CPCB. The proponent shall comply with the Ambient Air Quality Standards as notified by the MoE&F, GOI vide notification dt.16.11.2009. Monitoring of ambient air quality and stack emissions shall be carried out regularly in consultation with APSPCB and report submitted to the Board and to the Ministry's Regional Office at Bangalore half yearly.	PPs Submission	Ambient air quality including ambient noise levels are being maintained well below stipulated standards. Ambient air quality monitoring at 6 locations and stack emissions monitored on monthly basis. Monitoring reports regularly submitted to APPCB & Half yearly to MoEF and SEIAA, AP. Complied Attachment: Click to View

3	AIR QUALITY MONITORING AND PRESERVATION	<p>The company should install adequate dust collection and extraction system to control fugitive dust emissions at various transfer points. Suitable air pollution control equipment such as Bag filters are to be provided at Raw material hoppers Raw grinding ball mill, Raw meal storage silos. The dust collected from the pollution control equipment shall be recycled back into the process.</p>	PPs Submission	<p>Closed circuit grinding is adopted. Bag filters/dust collectors are installed at all transfer points and Bag-house provided to Ball Mill to control fugitive emissions. The dust collected from the pollution control equipment is 100% recycled back into the process. Complied Attachment: NA</p>
4	AIR QUALITY MONITORING AND PRESERVATION	<p>Raw materials shall be transported in covered trucks. Storage of raw material shall be in closed roof sheds / silos. Water spray system shall be provided all around stockpiles and dust suppression system around the coal conveyor system. Water sprayed to reduce the fugitive dust emissions. All the conveyors used in the plant shall be covered with sheets to mitigate dust pollution. All the roads in the plant area shall be asphalted/ concreted and water sprayed to reduce the fugitive dust emissions.</p>	PPs Submission	<p>Raw materials transported in covered trucks. Raw materials are stored under sheds / covered with tarpaulin. Clinker is being stored in clinker storage tanks. Flyash is being stored in silos. Cement is being stored in 6 silos. Flyash is being handled with closed circuit pneumatic system. All transfer points and storage silos are provided with dust collection and extraction systems for effective control of fugitive emissions. The dust collected from the pollution control equipment is being recycled back into the process. All raw material transfer conveyor are covered with non-asbestos sheets. All roads and open area in the plant are cement concreted. Water spray is being done in open areas and</p>

				on internal roads for effective control of fugitive emissions. Road sweepers are deployed and good housekeeping is being maintained to control fugitive dust emission. Complied Attachment: NA
5	GREENBELT	During presentation it is observed that the green belt development is not adequate and there is an immediate need to develop thick green belt during the monsoon season of 2010 on all sides as per the conditions stipulated in the EC issued earlier. Further the industry is required to submit a progress report on green belt development within 6 months.	PPs Submission	Complied, As on date Total Greenbelt area developed is 16.96 Ha (41.93 Acres). Complied Attachment: NA
6	GREENBELT	The industry should develop thick green belt as buffer in the area between the villages and the railway track in order to reduce the fugitive dust emissions.	PPs Submission	Developed thick green belt along premises towards Mulakalapalli village. Complied Attachment: NA
7	GREENBELT	The green belt shall be developed in an area of at least 13.80Ha, as per the CPCB guidelines in consultation with the local DFO. Strip plantation shall be developed on either side of the roads.	PPs Submission	Complied, As on date Total Greenbelt area developed is 16.96 Ha (41.93 Acres). Complied Attachment: NA
8	WATER QUALITY MONITORING AND PRESERVATION	The source of water is bore wells located in the premises. The total water requirement from the ground water source shall not exceed 200	PPs Submission	Total water consumption from the ground water source is maintained below 200 KLD. No effluent is

		KLD. Out of that 188 KLD is utilized for cooling purpose and 12 KLD is utilized for domestic purposes in the plant and township. No wastewater is generated from the cooling as it is evaporated. No effluent shall be discharged outside the factory premises. Sewage (9.60 KLD) generated from the plant and township shall be disposed to septic tank followed by soak pit.		being discharged outside the factory premises. Sewage generated from the plant and township is treated in STP and treated wastewater is 100% utilized for watering greenbelt. Complied Attachment: NA
9	WATER QUALITY MONITORING AND PRESERVATION	The company must harvest the rainwater from the rooftops and storm water drains to recharge the ground water.	PPs Submission	Rain water harvesting pond is constructed. Complied Attachment: NA
10	WASTE MANAGEMENT	Ash generated from the industry shall be utilized for production of PPC. The cement dust obtained from various pollution control devices shall be recycled and reused in the process. Waste oils, used oils generated from the industry shall be disposed as per the hazardous wastes (Management and handling) transboundary rules and its amendments thereof to the recyclers authorized by APPCB.	PPs Submission	The dust collected from the pollution control equipment is 100% recycled back into the process. Generated waste oils, used oils are being disposed to the recyclers authorized by APPCB. Complied Attachment: NA

General Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	MISCELLANEOUS	This order is valid for a	PPs Submission	Plant commissioned within EC validity period.

		period of 5 years.		Complied Attachment: NA
2	Statutory compliance	?Consent for Establishment? shall be obtained from APPCB under Air and Water Act before the start of any construction work at site for expansion project.	PPs Submission	CFE / CFO obtained from APPCB under Air and Water Act. Complied Attachment: NA
3	MISCELLANEOUS	No change in the process technology and scope of working should be made without prior approval of the SEIAA, A.P.	PPs Submission	CFE / CFO amendment obtained from APPCB for producing composite cement without overall change in production capacity. Complied Attachment: NA
4	Statutory compliance	The proponent shall submit half-yearly compliance reports in respect of the terms and conditions stipulated in the prior environmental clearance in hard and soft copies to the SEIAA on 1st June and 1st December of each calendar year.	PPs Submission	Half-yearly compliance latest reports for the period of October'2022 to March'2023 are submitted regularly to MoEF&CC and SEIAA, AP. Complied Attachment: Click to View
5	AIR QUALITY MONITORING AND PRESERVATION	Four ambient air quality monitoring stations should be established in the core zone as	PPs Submission	Ambient air quality monitoring at 6 locations and stack emissions monitored on monthly basis. Monitoring reports

		<p>well as in the buffer zone for RSPM, SPM, SO₂, NO_x monitoring. Locations of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board. The monitored data shall be regularly uploaded on the website of the project and also displayed at the project site.</p>	<p>regularly submitted to APPCB & Half yearly to MoEF&CC. Complied Attachment: NA</p>
6	AIR QUALITY MONITORING AND PRESERVATION	<p>Data on ambient air quality (RPM, SPM, SO₂, NO_x) should be regularly submitted to the Ministry including its Regional Office located at Bangalore and the State Pollution Control Board / Central Pollution Control Board once in six months.</p>	<p>PPs Submission AAQ data is being submitting to APPCB & MoEF&CC. Complied Attachment: NA</p>
7	Human Health Environment	<p>Personnel working in dusty areas should wear protective</p>	<p>PPs Submission As a company policy all personnel workings in factory are provided with PPE. Adequate training and</p>

		respiratory devices and they should also be provided with adequate training and information on safety and health aspects.		information on safety and health aspects are regularly provided. Complied Attachment: NA
8	Human Health Environment	Occupational health surveillance program of the workers should be undertaken periodically to observe any concentrations due to exposure to dust and take corrective measures, if needed.	PPs Submission	Occupational health surveillance is being carryout periodically. Complied Attachment: NA
9	MISCELLANEOUS	A separate environmental management cell with suitable qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.	PPs Submission	Separate environmental management cell is set-up. Complied Attachment: NA
10	Corporate Environmental Responsibility	The funds earmarked for implementation of Environmental Management Plan should be kept in separate account and should not be diverted for other purpose. Year wise expenditure	PPs Submission	So far we spent Rs.39.124 Crores towards EMP. During April?2023 to September? 2023 spent Rs.10.40 Lakhs for Bag filters replacement, Bag filter Fans modification spillage and fugitive emissions control initiatives. Complied Attachment: NA

		should be reported to the Ministry and its Regional Office located at Bangalore.		
11	MISCELLANEOUS	The Regional Office of MoE&F located at Bangalore monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information / monitoring reports.	PPs Submission	Extending full cooperation to the inspecting officer(s). Complied Attachment: NA
12	MISCELLANEOUS	A copy of clearance letter shall be marked to concerned Panchayat / local NGO, if any, from whom suggestion / representation has been received while processing the proposal.	PPs Submission	Copy of clearance letter marked to local Panchayat. Complied Attachment: NA
13	MISCELLANEOUS	State Pollution Control Board should display a copy of the clearance letter at Regional Office, District Industry Center and Collector's Office / Tehsildar's	PPs Submission	Complied. Complied Attachment: NA

		Office for 30 days.		
14	MISCELLANEOUS	<p>The project should advertise at least in two news papers widely circulated, one of which shall be in the vernacular language of the locality concerned.</p> <p>Within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and SEIAA, A.P</p>	PPs Submission	<p>Advertisement was published.</p> <p>Complied</p> <p>Attachment: NA</p>
15	MISCELLANEOUS	<p>The SEIAA or any other competent authority may alter/modify the above conditions or stipulated any further conditions in the interest of environment protection.</p>	PPs Submission	<p>Complied.</p> <p>Complied</p> <p>Attachment: NA</p>
16	Corporate Environmental Responsibility	<p>The company shall undertake eco-development measures including community welfare measures in the project area.</p>	PPs Submission	<p>Total Rs.241.02 Lakhs spent till date, towards welfare measures in nearby villages.</p> <p>Complied</p> <p>Attachment: NA</p>

17	Statutory compliance	The proponent shall obtain all other mandatory clearances from respective department.	PPs Submission	Applicable mandatory clearances from respective department are obtained and are valid. Complied Attachment: NA
18	MISCELLANEOUS	Environment clearance is subject to final order of the Hon?ble Supreme court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (civil) No. 460 of 2004 as may be applicable to this project.	PPs Submission	Not applicable Complied Attachment: NA
19	MISCELLANEOUS	Any appeal against this environment clearance shall lie with the national environment appellate Authority, if preferred, within a period of 30days as prescribed under section 11 of the National Environment Appellate Act, 1997.	PPs Submission	Noted. Complied Attachment: NA
20	Statutory compliance	Concealing the factual data or failure to comply with any of the conditions mentioned above may result in with drawl of this clearance and	PPs Submission	Complied. Complied Attachment: NA

		attract action under the provisions of Environment (protection) Act, 1986 without any prior notice.		
21	Statutory compliance	These stipulations would be enforced among others under the provisions of Water (Prevention & Control) Act, 1974, The Air (Prevention & Control of pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.	PPs Submission	Complied. Complied Attachment: NA
