

**Half Yearly Compliance Report****2024****01 Dec(01 Apr - 30 Sep)****Acknowledgement**

<b>Proposal Name</b>	CHOUTAPALLI LIMESTONE MINE-II (156.586 Ha; 2.72 MTPA) OF M/s. MY HOME INDUSTRIES PRIVATE LIMITED, LOCATED AT CHOUTAPALLI (V), MATTAMPALLI (M), SURYAPET DISTRICT.		
<b>Name of Entity / Corporate Office</b>	MY HOME INDUSTRIES PRIVATE LIMITED		
<b>Village(s)</b>	N/A		
<b>District</b>	SURYAPET		
<b>Proposal No.</b>	IA/TG/MIN/26997/2013	<b>Category</b>	Non-Coal Mining
<b>Plot / Survey / Khasra No.</b>	N/A	<b>Sub-District</b>	N/A
<b>State</b>	TELANGANA	<b>Entity's PAN</b>	*****9480C
<b>MoEF File No.</b>	J-11015/445/2013- IA. II (M)	<b>Entity name as per PAN</b>	MY HOME INDUSTRIES PRIVATE LIMITED

**Compliance Reporting Details**

<b>Reporting Year</b>	2024
<b>Remarks (if any)</b>	Enclosed herewith Six Monthly Environmental Clearance Compliance report for the period April'24 to September'24 of CHOUTAPALLI LIMESTONE MINE-II.
<b>Reporting Period</b>	01 Dec(01 Apr - 30 Sep)

**Details of Production and Project Area**

**Name of Entity / Corporate Office** MY HOME INDUSTRIES PRIVATE LIMITED

	<b>Project Area as per EC Granted</b>	<b>Actual Project Area in Possession</b>
Private	151.163	151.163
Revenue Land	0	0
Forest	0	0
Others	5.423	5.423
<b>Total</b>	<b>156.586</b>	<b>156.586</b>

**Production Capacity**

Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
1	LIMESTONE	Million Tons per Annum (MTPA)	30/06/2026	2.72	0.89	2.72

## Conditions

### Specific Conditions

Sr.No.	Condition Type	Condition Details
1	AIR QUALITY MONITORING AND PRESERVATION	Real time monitoring of air pollutants shall be done around the adjoining villages by establishing online AAQ stations in each village and display of parameters done at designated locations. The operations should be stopped immediately if air quality found to be below the prescribed standards.
<p><b>PPs Submission:</b> Being Complied Total 5 Nos CAAQMS are installed within the radius of 1 to 2 Km to cover new and existing mine. One CAAQM station installed in the mine (predominant wind direction) for continuous monitoring of air quality. We are also carrying out manual monitoring of ambient air quality at 9 stations of nearby villages.</p>		Date: 11/11/2024
2	Human Health Environment	Pre-placement medical examination and periodical medical examination of the works engaged in the project shall be carried out and records maintained. For the purpose, schedule of health examination of the workers should be drawn and followed accordingly.
<p><b>PPs Submission:</b> Being Complied Pre placement medical examination is done for the new employees. Periodic medical check-up conducted for 367 employees by external agency on 10th to 11th Sept, 2023. Records of the same are being maintained.</p>		Date: 11/11/2024
3	Statutory compliance	Regular monitoring of free silica in the dust will be carried out and records maintained. It shall be ensured that the levels of silica do not exceed the prescribed limit. The workers will be provided with personal protective measures to guard against inhaling silica dust.
<p><b>PPs Submission:</b> Being Complied Free silica is monitored and reports are being maintained. Free silica content in the dust is well below the prescribed limit. As a company policy all personal workings in mine site are provided with PPEs.</p>		Date: 11/11/2024
4	Human Health Environment	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. the housing may in the form of temporary structures to be removed after the completion of the project.
<p><b>PPs Submission:</b> Being Complied Not applicable. There is no construction activity in the mine area.</p>		Date: 11/11/2024
5	MINING PLAN	The project proponent should take all precautionary measures during mining operation for the conservation and protection of endangered flora as well as endangered fauna in the study area. Action plan for the conservation flora and fauna shall be prepared and

		implemented with in consultation with the State Forest and Wildlife Department. Necessary allocations for the funds for implementation of the conservation plan shall be made and the funds so allocated shall be included in the project cost. Copy of action plan may be submitted to the Ministry and its Regional Office at Chennai within 3 months.
<p><b>PPs Submission: Being Complied</b> There is no endangered flora and fauna found in the project area. Certificate issued by forest Department Nalgonda vide letter RC No 565/2008/S5, Dated 09.06.2008 certifying that there is no endangered flora and fauna species found in the vicinity of Yepalamadhavaram forest block and MHIPL. Draft conservation plan submitted to PCCF/CWLW, Telangana Forest Department for suggestion vide letter No. MHIPL/MCW/ENV/2018-19 dated 16.11.2018.</p>		Date: 11/11/2024
6	AIR QUALITY MONITORING AND PRESERVATION	The critical parameters such as RSPM (Particulate Matter less than 10 microns i.e. PM 10) and NOx in the ambient air within the impact zone, peak particle velocity at 300m distance or within the nearest habitation, whichever is closer shall be monitored periodically. Further, quality of discharged water shall also be monitored [(TDS, DO, pH and Total Suspended Solids (TSS))]. The monitored data shall be uploaded on the website of the company as well as displayed on a display board at project site at suitable location near the main gate of the company in public domain. The circular No. J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by ministry of Environment, Forests & Climate Change, which is available on the website of the ministry. www.envfor.nic shall also be referred in this regard.
<p><b>PPs Submission: Being Complied</b> Mine development activities commenced on 22.02.2018. Ambient air quality monitoring is carried out in core zone peak particle velocity is being monitoring during blasting operations, The peak particle velocity (PPV) levels at 300m distance are maintaining within the limits. Presently, we are not discharging any water from mine lease.</p>		Date: 11/11/2024
7	MINING PLAN	A final mine closure plan along with details corpus fund should be submitted to the ministry of environment, Forest & Climate Change 5 years in advance of final mine closure for approval.
<p><b>PPs Submission: Being Complied</b> Mine is active. Final mine closure plan will be submitted 5 years in advance whenever mine will close.</p>		Date: 11/11/2024
8	PUBLIC HEARING	The project proponent shall undertake all the commitments made during the public hearing and effectively address the concerns raised by the locals in the public hearing as well as during consideration of the project, while implementing the project.
<p><b>PPs Submission: Being Complied</b> Commitments made during public hearing are being addressed. Year wise expenditure under Community development activities at nearby villages is given below. Year Total amount (Lakhs.) 2021 - 22 104.08 2022 - 23 141.28 2023 - 24 107.63 ( Apr 24-Sept 24) 35.76</p>		Date: 11/11/2024
9	WATER QUALITY MONITORING AND PRESERVATION	The project proponent shall ensure that no natural watercourse and /or water resources shall be obstructed due to any mining operations. Adequate measures shall be taken for conservation and protection of 1st and 2nd order streams, emanating or passing through the mine lease during the course of mining operation.
<p><b>PPs Submission: Complied</b> There is no natural water course or water resources inside the mine lease.</p>		Date: 11/11/2024

10	LAND RECLAMATION	The top soil, if any shall temporarily be stored at earmarked site(s) only and it should not be kept unutilized for long. The top soil shall be used for land reclamation and plantation.
<b>PPs Submission: Being Complied</b> Generated top soil during the development period is being utilized for plantation along the 7.5 m barrier zone of the periphery of mining lease area. 8,23,334 Cubic. Mtr. topsoil generated from Apr 24 to Sept 24.		Date: 11/11/2024
11	MINING PLAN	The overburden (OB) generated during the mining operation shall be stacked at earmarked dump site(s) only and it should not be kept active for a long period of time and their phase-wise stabilization shall be carried out. Proper terracing of OD dumps(s) shall be carried out. The over burden dump(s) shall be scientifically vegetated with suitable native species to prevent erosion and surface runoff. In critical areas, use of geo textiles shall be undertaken for stabilization of dumps. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining. Compliance status should be submitted to the Ministry of Environment, Forest and Climate Change and its regional office, Chennai on six monthly basis.
<b>PPs Submission: Complied</b> There is no over burden dumps in this mine.		Date: 11/11/2024
12	WATER QUALITY MONITORING AND PRESERVATION	Catch drains and siltation ponds of appropriate size shall be constructed for the working pit, temporary OB and mineral dumps to arrest flow of silt and sediment directly into the adjoining River and other water bodies. The water so collected should be utilized for watering the mine area, roads, greenbelt development etc. The drains should be regularly desilted particularly after the monsoon and maintained properly.
<b>PPs Submission: Complied</b> There is no over burden generation in this mine and no river or water body in the adjoining area.		Date: 11/11/2024
13	GREENBELT	Plantation shall be raised in a specified area including a 7.5 m wide green belt in safety zone around the mining lease, OB Dump(s), along the roads, etc., by planting the native species in consultation with the local DFO/agriculture department. In addition, plantation shall be also raised in the backfilled and reclaimed area and around water body.
<b>PPs Submission: Being Complied</b> Plantation is being done in phase manner with native plant species. 7.5 m wide greenbelt is being developed. Overall 4.38 Ha of area was developed with 4,272 Nos. of saplings as on 30.09.2024.		Date: 11/11/2024
14	AIR QUALITY MONITORING AND PRESERVATION	Effective safeguard measures, such as a regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as around crushing and screening plant, loading and unloading point and all transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the ambient Air Quality parameters confirm to the norms prescribed by the Central Pollution Control Board in this regard.
<b>PPs Submission: Being Complied</b> Water sprinkling is being done through water tankers on haulage roads, loading area, unloading and dump crusher etc. to control air pollution. Water sprinklers and bag filters are provided to transfer points to reduce dust emissions. All safeguards measures are being implementing to ensure		Date: 11/11/2024

parameters to maintain AAQ standards within permissible limits.		
15	WATER QUALITY MONITORING AND PRESERVATION	Regular monitoring of water quality upstream and downstream of perennial nallahs falling in the impact zone shall be carried out and record the monitoring data should be maintained and submitted to MoEF&CC, its regional office, Chennai, CGWA, Regional Director, CGWB, SPCB and CPCB.
<b>PPs Submission:</b> Complied There are no perennial nallahs falling in the mine lease.		Date: 11/11/2024
16	WATER QUALITY MONITORING AND PRESERVATION	Appropriate measures shall be taken for the treatment of the upper catchment of the mine lease area.
<b>PPs Submission:</b> Complied There is no upper catchment in the mining lease area.		Date: 11/11/2024
17	WATER QUALITY MONITORING AND PRESERVATION	The project authority should implement suitable conservation measure to augment ground water resources in the area in consultation with the regional director, CGWB.
<b>PPs Submission:</b> Being Complied In due course of time, the mineral excavated area will serve the purpose of water harvesting pit and helps to augment ground water resources.		Date: 11/11/2024
18	WATER QUALITY MONITORING AND PRESERVATION	Regular monitoring of ground water level and quality shall be carried out in and around the mine lease by establishing a network of existing wells and installing new piezometers during the mining operations. The periodic monitoring [(at least four times in a year –pre-monsoon (apr-may), monsoon (August), post-monsoon (November) and winter (January) once in each season)] shall be carried out in consultation with the state ground water board/Central ground water authority and the data thus collected may be sent regularly to the MoEF&CC, and its regional office Chennai, the CGW authority and the regional director, CGWB. If at any stage, it is observed that the ground water table is getting depleted due to the mining activity; necessary corrective measures shall be carried out.
<b>PPs Submission:</b> Being Complied Seasonal monitoring of ground water level and quality is being carried out. Total 9 nos. piezometers are established for ground water quality and level monitoring. Data of the same is being submitted to CGWA and CGWB on quarterly basis and also to MoEF&CC, IRO, and Hyderabad along with six monthly compliance reports. Being Complied		Date: 11/11/2024
19	Statutory compliance	The project proponent shall obtain necessary prior permissions of the competent authorities for drawl of requisite quantities of water, required for the project.
<b>PPs Submission:</b> Being Complied Water required for this mine is used from water pit of adjacent mine Choutapalli Limestone mines - 1 and 2.		Date: 11/11/2024
20	Statutory compliance	Suitable rain water harvesting measures on long term basis shall be planned and implemented in consultation with the Regional Director, Central Ground Water Board.

<p><b>PPs Submission: Being Complied</b> In due course of time, the mineral excavated area will serve the purpose of water harvesting pit and helps to augment ground water level.</p>		<p>Date: 11/11/2024</p>
21	<p>WATER QUALITY MONITORING AND PRESERVATION</p>	<p>Appropriate mitigative measures should be taken to prevent pollution of nearby River in consultation with the State Pollution Control Board.</p>
<p><b>PPs Submission: Complied</b> There is no river nearby the mining lease area.</p>		<p>Date: 11/11/2024</p>
22	<p>AIR QUALITY MONITORING AND PRESERVATION</p>	<p>Vehicular emission shall be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in mining operations and in transportation of mineral. The mineral transportation shall be carried out through the covered trucks only and vehicles carrying the mineral shall not be overloaded.</p>
<p><b>PPs Submission: Being Complied</b> The periodical maintenance of the vehicles is carried as per OEM recommendations and the vehicle emissions monitored periodically.</p>		<p>Date: 11/11/2024</p>
23	<p>MINING PLAN</p>	<p>Controlled blasting shall be practiced. The mitigative measures for control of ground vibrations and to arrest fly rocks and boulders should be implemented.</p>
<p><b>PPs Submission: Being Complied</b> Blasting is being done only during daytime as recommended by DGMS. Ground vibrations and fly rock are controlled by using non-el bottom initiation detonators.</p>		<p>Date: 11/11/2024</p>
24	<p>MINING PLAN</p>	<p>Drills shall either be operated with dust extractors or equipped with water injection system.</p>
<p><b>PPs Submission: Being Complied</b> Wet drilling by water injection system is practiced to control the dust emission.</p>		<p>Date: 11/11/2024</p>
25	<p>AIR QUALITY MONITORING AND PRESERVATION</p>	<p>Mineral handling area shall be provided with adequate number of high efficiency dust extraction system. Loading and unloading areas including all the transfer points should also have efficient dust control arrangements. These should be properly maintained and operated.</p>
<p><b>PPs Submission: Being Complied</b> All measures are taken to control fugitive emissions such as water spraying on haul roads etc. Water spraying arrangement is provided at crusher dump hopper and loading and unloading points. Fixed water sprinklers are provided haul roads where vehicular movement is more to suppress the dust generated.</p>		<p>Date: 11/11/2024</p>
26	<p>WATER QUALITY MONITORING AND PRESERVATION</p>	<p>Sewage treatment plant shall be installed for the colony. ETP shall also be provided for the workshop and waste water generated during the mining operation.</p>
<p><b>PPs Submission: Being Complied</b> STP of 400 KLD is in operation at colony to treat domestic sewage. Wastewater generated from vehicle washings are routed to Oil and Grease separator followed by sedimentation trap and finally to on land. For domestic wastewater, septic tank and soak pit are provided.</p>		<p>Date: 11/11/2024</p>
27	<p>Statutory compliance</p>	<p>Environmental clearance is subject to obtaining clearance, if any, under the Wildlife (Protection) Act, 1972 from the competent authority, as may be applicable to this project.</p>

<b>PPs Submission:</b> Complied Not applicable.		Date: 11/11/2024
28	Statutory compliance	No mining activities will be allowed in forest area, if any, for which the forest clearance is not available.
<b>PPs Submission:</b> Complied Not applicable. No forest land in lease area.		Date: 11/11/2024
29	Statutory compliance	The project proponent shall obtain Consent to Operate from State Pollution Control Board, Telangana and effectively implement all the conditions stipulated therein.
<b>PPs Submission:</b> Being Complied Obtained consent for operation from Telangana State Pollution Control Board vide Order no. 210522986074 Date: 23.07.2021 and valid up to 30.06.2026.		Date: 11/11/2024
30	Statutory compliance	The prior permission from CGWA for intersecting the ground water table shall be obtained.
<b>PPs Submission:</b> Being Complied The mine was commenced its mining activities from 22.02.2018. Actual depth of mining operation is 25 mts. Intersection of groundwater table is at 55-60 bgl as per Hydrological study report conducted by M/s. GCRS, Vishakapatnam of August 2023.		Date: 11/11/2024
31	Statutory compliance	The project will implement and comply with all applicable safeguard measures as provided in OM No. Z-11013/57/2014-IA.II (M) date 29th October 2014.
<b>PPs Submission:</b> Being Complied Applicable safeguard measures are being followed / implemented.		Date: 11/11/2024
32	Statutory compliance	A buffer zone of 50 meters (greenbelt) on either side of the Nagarjuna Canal passing near the lease area should be developed for protection of the canal.
<b>PPs Submission:</b> Being Complied Greenbelt will be developed along the canal during course of operation of mine in phased manner as per mining plan submitted and As of now 5016 Nos. Saplings plantation done.		Date: 11/11/2024
33	WATER QUALITY MONITORING AND PRESERVATION	The loose solids should be kept separately from flowing water and flow of effluents to nearby areas outside the lease hold shall be prevented. The paved drains along with arrangements of overburden dumps and their drainage may be clearly depicted on a contoured map of the mining area.
<b>PPs Submission:</b> Complied There is no over burden generation in this mine.		Date: 11/11/2024
34	WATER QUALITY MONITORING AND PRESERVATION	Appropriate safeguard measures shall be taken to ensure stability and drainage of dump so that no solid waste/debris flows into the nallah.
<b>PPs Submission:</b> Complied There is no over burden dumps in this mine.		Date: 11/11/2024

35	WATER QUALITY MONITORING AND PRESERVATION	Dimension of the retaining wall at the toe of the OB dump(s) and the OB benches within the mine to check run-off and siltation should be based on the rain fall data.
<b>PPs Submission:</b> Being Complied There is no over burden dumps in this mine.		Date: 11/11/2024
36	Statutory compliance	Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court of Telangana and any other court of law, if any, as may be applicable to this project.
<b>PPs Submission:</b> Complied ---		Date: 11/11/2024
<b>General Conditions</b>		
Sr.No.	Condition Type	Condition Details
1	MINING PLAN	No change in mining technology and scope of working should be made without prior approval of the Ministry of Environment, Forests & Climate Change.
<b>PPs Submission:</b> Being Complied Mine is an opencast and fully mechanized mining practices are adopted. No change in mining technology and scope of working will be done without obtaining prior approval from the Ministry.		Date: 11/11/2024
2	MINING PLAN	No change in the calendar plan including excavation, quantum of mineral limestone and waste if any should be made.
<b>PPs Submission:</b> Being Complied No change in the calendar plan including excavation, quantum of mineral and waste will be made. Limestone production details are as follows; Year Consented (MTPA) Excavated (MTPA) 2022-23 0.900 0.719 2023-24 0.900 0.890 2023-24 (Apr 24-sept 24) 0.900 0.604		Date: 11/11/2024
3	AIR QUALITY MONITORING AND PRESERVATION	Four ambient air quality monitoring stations should be established in the core zone as well as in the buffer zone for RSPM (Particulate matter with size less than 10micron i.e.PM10), and NOx monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.
<b>PPs Submission:</b> Being Complied Ambient air quality monitoring is done at 8 locations in the core zone as well as buffer zone covering all mine leases based on the meteorological data. Ambient air quality is being monitored through MoEFCC recognized environmental laboratory of M/s. Lawn Enviro Private Limited.		Date: 11/11/2024
4	AIR QUALITY MONITORING AND PRESERVATION	Data on ambient air quality RSPM (Particulate matter with size less than 10micron i.e.PM10) and NOx) should be regularly submitted to the MoEF & CC including its Regional Office located at Bangalore Chennai and the SPCB/CPCB once in six months.
<b>PPs Submission:</b> Being Complied Ambient Air Quality monitoring Stations to monitor PM10, PM2.5, SO2 and NOx. Reports are submitted /uploaded in Parivesh Portal as per MoEFCC OM dt 14.06.2022 and also to TGPCB once in six months.		Date: 11/11/2024

5	AIR QUALITY MONITORING AND PRESERVATION	Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.
<b>PPs Submission: Being Complied</b> All measures are taken to control fugitive emissions such as wet drilling water spraying on haul roads etc. Water spraying arrangement is provided at crusher dump hopper and loading and unloading points. Fixed water sprinklers are provided haul roads where vehicular movement is more to suppress the dust generated.		Date: 11/11/2024
6	Noise Monitoring & Prevention	Measures should be taken for control of noise levels below 85 dB(A) in the work environment. Workers engaged in operations of HEMM, etc. should be provided with ear plugs / muffs
<b>PPs Submission: Being Complied</b> Noise levels are monitored at 5 locations in the work zone quarter through MoEFCC recognized laboratory. All workers are mandatorily provided PPE including ear plugs. Other measures of mechanical nature are being taken to reduce the noise levels below the standards. S. No Location dB(A) Apr-Jun 24 Jul-Sept 24 1. Lime Stone Crusher feeder 77.40 79.10 2. Drilling Point 81.20 80.70 3. Dumper Cabin 70.60 72.30 4. Haulage Road 77.50 75.60 5. Loading Area 78.10 82.50		Date: 11/11/2024
7	WATER QUALITY MONITORING AND PRESERVATION	Industrial wastewater (workshop and waste water from the mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December 1993 or as amended from time to time. Oil and grease trap should be installed before discharge of workshop effluents.
<b>PPs Submission: Being Complied</b> No waste water is generated from the mine. Waste water generated from vehicle washings are routed to Oil and Grease separator followed by sedimentation trap and finally to on land. For domestic wastewater, septic tank and soak pit are provided. Vehicle washing system maintained at existing workshop at Choutapalli limestone mine-1.		Date: 11/11/2024
8	Human Health Environment	Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects. Occupational health surveillance Programme of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.
<b>PPs Submission: Being Complied</b> As a company policy all personal workings in mine site are provided with PPE. Adequate training and information on safety and health aspects are regularly provided.		Date: 11/11/2024
9	MISCELLANEOUS	A separate environmental management cell with suitable qualified personnel should be set up under the control of a Senior Executive, who will report directly to the Head of the Organization.
<b>PPs Submission: Being Complied</b> Separate Environment cell exists at site and corporate office with qualified personnel which are under control of Senior Executive, heading the Organization		Date: 11/11/2024
10	MISCELLANEOUS	The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year-wise expenditure should be reported to the Ministry of Environment, Forests & Climate Change and its Regional Office located at Chennai.

<p><b>PPs Submission: Being Complied</b> During the period Apr 24-Sept 24, MHIPL has spent 5.76 Lakhs expenditure towards environmental protection measures (Greenbelt development and maintenance, Dust suppression and environmental monitoring) at our Choutapalli mine-II.</p>		<p>Date: 11/11/2024</p>
11	MISCELLANEOUS	The project authority should inform to the Regional Office located at Chennai regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work
<p><b>PPs Submission: Being Complied</b> We have informed to Regional Office, Chennai for start of land development work vide our letter No. MHIPL/MCW-CLM-II/ENV/2017-18/142, dated 22nd March, 2018.</p>		<p>Date: 11/11/2024</p>
12	Statutory compliance	The State Pollution Control Board should display a copy of the clearance letter at the Regional Office, District Industry Centre and Collector's Office / Tehsildar's Office for 30 days.
<p><b>PPs Submission: Complied</b> --</p>		<p>Date: 11/11/2024</p>
13	MISCELLANEOUS	The Regional Office of this Ministry located at Chennai shall monitor compliance of the stipulated conditions. The project authorities should extend full Cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information / monitoring reports.
<p><b>PPs Submission: Being Complied</b> MHIPL will extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data/information / monitoring reports.</p>		<p>Date: 11/11/2024</p>
14	Statutory compliance	The Project proponent shall submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copy as well as by e-mail) to the Ministry of Environment, Forest & Climate Change, its Regional Office Chennai, the respective Zonal office of Central Pollution control Board the State Pollution Board. The Proponent shall upload the status of compliance of the Environmental Clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the MoEF&CC, Chennai, the respective Zonal Office of CPCB and SPCB.
<p><b>PPs Submission: Being Complied</b> Reports are submitted /uploaded in Parivesh Portal as per MoEFCC OM dt 14.06.2022 and also to TGPCB once in six months. Latest compliance report for the period of Oct 23 to Mar 24 with vide Ref No. MHIPL/MCW/ENV/2024/89 Dt. 20.05.2024. Submitted reports of the same are uploaded in our company website also on : <a href="https://www.mahacement.com/environment">https://www.mahacement.com/environment</a></p>		<p>Date: 11/11/2024</p>
15	MISCELLANEOUS	A copy of the clearance letter shall be sent by proponent to concerned Panchayat, Zila Parishad / Municipal Corporation, Urban Local Body and the local NGO, if any, from whom and suggestion / representation, If any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent.
<p><b>PPs Submission: Complied</b> Clearance Letter submitted to Choutapalli Village Gram Panchayat with Ref. No. MHIPL/P and A/2015-16/465 Dated 22.10.2016.</p>		<p>Date: 11/11/2024</p>

16	Statutory compliance	The Environmental Statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall be put on the website of the company along with the status of compliance of Environmental Clearance conditions and shall also be sent to the Regional Office of the MoEF&CC, Chennai by e-mail.
<b>PPs Submission:</b> Being Complied Environmental Statement in Form-V for the period 2023-24 was submitted vide our letter no. MHIPL-MCW/ENV/2024/188. Dt: 19.09.2024.		Date: 11/11/2024
17	MISCELLANEOUS	The project authorities should advertise at least in two local newspapers of the district or state widely circulated, in which the project is located and one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at we seen at web site of the Ministry of Environment & Forests at <a href="http://envfor.nic.in">http://envfor.nic.in</a> and a copy of the same should be forwarded to the Regional Office of this Ministry located in Chennai.
<b>PPs Submission:</b> Complied Copy of Clearance Letter sent to MOEFCC Regional Office Chennai with Ref. No. MHIPL/ENV-HO/CLM-II/2016-17 Dated 25.10.2016. Information of EC accorded by MoEFCC was advertised on 22.10.2016 in Namaste Telangana (Telugu daily newspaper) and in The Hindu (English daily newspaper).		Date: 11/11/2024
<b>Visit Remarks</b>		
<b>Last Site Visit Report Date:</b>		23/11/2023
<b>Additional Remarks:</b>		
<p style="text-align: center;"><b>Note:</b> This acknowledgement is as per the details submitted by project proponent. In no way is this document to be considered as conclusion on any action on the compliance of the project. This is strictly for the project proponent's reference purpose.</p>
